## 👤 PROFILE

A skilled Software Developer with more than 3 years of experience. Since February 2021, I've been actively contributing my expertise as a Software Developer at DAFTech Social ICT Solution, where I specialize in developing web applications using ASP.NET Core, Angular, Django REST API, and React. My responsibilities have involved various projects spanning website, mobile app, and desktop app development, showcasing my proficiency across different platforms.

I am committed to continuous learning and growth, staying updated with the latest technologies and industry trends. My strong background in software development, coupled with effective communication skills and a proactive approach, enables me to thrive in fast-paced environments and deliver high-quality results consistently.

## 🧠 SKILLS

- ASP.NET Core
- Django REST API Framework
- Angular
- React
- Kotlin, Flutter

## 💼 PROFESSIONAL EXPERIENCE

**DAFTech Social ICT Solution**
Software Developer
02/2021 – present | Addis Ababa, Ethiopia
Responsibilities: Developed web applications using ASP.NET Core and Angular, as well as Django REST API and React. Involved in various projects including website, mobile app, and desktop app development.

## 🎓 EDUCATION

**Computer Science**
HiLCoE School of Computer Science and Technology
09/2016 – 02/2021 | Addis Ababaa, Ethiopia

## 📁 PROJECTS

**Project Management**
A Project Management System encompasses a suite of tools and methodologies devised to strategize, coordinate, supervise, and monitor the evolution of a project from inception to culmination. Developed using Angular and ASP.NET Core, also with a mobile app using Flutter.

**Case Tracking**
There are two different kinds of cases, Inside cases (which helps to manage the issues that arise inside the bureau such leave request and so on) and outside cases (which helps to handle the issues of the clients of the bureau) (which helps to manage the issues of the clients of the bureau). Developed using Angular and ASP.NET Core, also with a mobile app using Kotlin.

**ERP System**
An ERP SYSTEM which contains project management, HRM, Finance, and Inventory modules. Developed using Angular and ASP.NET Core.

**Membership Management System**
a membership management system for the Ethiopian Midwives Association (EMwA), facilitating membership administration. Developed using Angular and ASP.NET Core. For the Chapa integration, I utilized a Node.js API to communicate with the Angular frontend and the Chapa site.
